

## Ejercicios de Python

## Ing. requena llorentty jimmy nataniel

## **Integrantes:**

- Marco Aurelio Barriga
- Adaniel Balderrama Orellana
- Carlos Ademar Suárez

 PS E:\puropaython\_programacion2> & C:/Use Lista original: [1, 2, 3, 4, 5]
Lista invertida: [5, 4, 3, 2, 1]
PS E:\puropaython\_programacion2> ☐ Python ☐ ∨ ☐ 前 ··· ^ ×

Aprendí sobre la lista y los repositorios de github, una recomendación que nos enseñé también sobre git que es una herramienta bastante buena para los programadores
